

Rechargeable AA Battery

This high-capacity rechargeable AA battery is designed for long-lasting power in various electronic devices. It provides reliable performance and can be recharged multiple times, offering a cost-effective and environmentally friendly power solution.

Overview

High-Capacity Rechargeable Power

This high-capacity rechargeable AA battery is engineered for long-lasting performance across a wide range of electronic devices. It serves as a reliable and cost-effective power solution, perfect for digital cameras, remote controls, toys, and various household electronics. By supporting multiple recharge cycles, it offers an environmentally friendly alternative to single-use batteries.

Technical Specifications

Rated Capacity

1300 mAh
Capacity

Voltage

1.2 V

Compatibility & Usage

Ideal Applications

Digital Cameras, Remote Controls, Toys, Household Electronics
