Overview

High-Efficiency 16L Electric Knapsack Sprayer

This professional-grade rechargeable electric sprayer is designed for high-efficiency gardening and agricultural applications, offering 3 to 4 times the efficiency of traditional pump-action sprayers. Built with a durable 16L tank and a high-capacity rechargeable battery, it provides up to 5 hours of continuous operation without the need for manual pumping. The ergonomic design features a massage backboard and adjustable straps to ensure comfort during extended professional use.

Performance Highlights

Performance Metrics

16 L

Tank Capacity

5 h

Continuous Use

0.45 MPa

Max Pressure

Technical Specifications

Battery Voltage	12 V
Battery Capacity	8Ah - 10Ah
Operating Pressure	0.25 - 0.45 MPa

Design & Construction

Key Design Features

- Thick, fracture-resistant body
- Water level viewing window
- Built-in filtration mesh for chemicals
- Integrated voltage meter
- Massage backboard for user comfort
- Adjustable nozzle patterns

Tank Material

Durable PP (Polypropylene)

Components

System Components

Component	Description
Spray Bar	Extended reach wand with storage clip
Rubber Pipe	Durable fluid delivery hose
Nozzle	Adjustable for various spray patterns
Interface	Convenient charge port and power switch
