

Rechargeable Detail Trimmer for Outlining and Fading

This professional rechargeable detail trimmer is designed for precise outlining, fading, and close cutting. It features a high-performance motor for efficient and smooth trimming.

Product Overview

Professional Precision Trimming

This rechargeable detail trimmer is engineered for professionals requiring high-precision outlining and fading capabilities. It features a powerful motor that delivers consistent performance, paired with a specialized zero-gap blade set for creating sharp, defined lines. With its long-lasting battery system and ergonomic build, it provides both comfort and reliability for barbers and stylists throughout the workday.
