Product Overview

Versatile Emergency Lighting

This rechargeable LED camping lantern offers a reliable, portable lighting solution for both outdoor adventures and emergency preparedness. Engineered with dual-charging capabilities via AC and solar, it ensures you have light whenever and wherever you need it. The stepless dimming knob allows for precise control over brightness, making it suitable for various environments.

Technical Specifications

Model Number	TGX-6054
Power Rating	7 W
Input Voltage	AC100-240V 50/60Hz

Lighting Performance

Lumen Output

400 LM Min Lumens	500 LM Max Lumens
-----------------------------	-----------------------------

Color Temperature	6000-6500K
-------------------	------------

Power & Battery

Battery Capacity	1800 mAh
Battery Type	Lead-acid Battery
Charging Time	12 Hours
Lighting Duration	1-6 Hours

Physical Attributes

Material	ABS, PC
Net Weight	500 g

Features

Included Accessories <ul style="list-style-type: none">• 0.6M Black AC Power Cord• Round & Flat plug	
Control	Knob Switch with Stepless Dimming
