Overview

Versatile Lighting Solution

This rechargeable LED desk lamp features a flexible gooseneck design, allowing for precise light positioning for reading, studying, or ambient use. Equipped with a 1200mAh Li-ion battery, it offers portable, cordless operation with three adjustable brightness levels controlled via a simple touch interface. The durable ABS+PS construction and efficient LED technology provide a reliable lighting solution for various environments.

Technical Specifications

Model Number	TGX-771
Power Consumption	4 W
Input Voltage	AC100-240V

Lighting Performance

Lumen Output	200LM-280LM
Color Temperature	3800-4100K
CRI	RA > 80

Battery & Power

Lighting Duration by Level

1.5 H Brightest	3 H Brighter	6 H Bright
