Product Overview

Precision Inspection Instrument

This rechargeable LED scale loupe provides high-quality 10x magnification for professional inspection and measurement. It features integrated LED illumination to ensure clear visibility, while its compact, ergonomic design allows for comfortable handling. The rechargeable battery system eliminates the need for frequent battery replacements, making it ideal for continuous use in electronics, jewelry, textiles, and scientific research.

Technical Specifications

Magnification	10 x
Light Source	Integrated LED
Power Supply	Rechargeable battery
Target Industries	Electronics, Jewelry, Textiles, Printing, Scientific Research, Quality Control

Package Contents

Included Items

- Scale Loupe
- Protective Case
- USB Charging Cable
