Overview

Versatile Dual-Light Illumination

This rechargeable LED searchlight is designed for reliability in both emergency situations and outdoor activities. It features a powerful dual-light system, combining a focused main beam with a side light panel for broader area illumination. With an integrated 800mAh battery, it provides consistent performance and is easily recharged using standard AC power.

Technical Specifications

Power Consumption

3.2 W Main Light Power	3 W Side Light Power
----------------------------------	--------------------------------

Working Duration

- 2.5 hours (Main Light)
- 7 hours (Side Light)

Model Number	DP-7316
Battery Capacity	800 mAh
Charging Time	9 hours

Power Requirements

Input Voltage	AC 100-240V 50/60Hz
Input Current	0.05 A
