Product Overview

Versatile Professional Lighting Solution

This rechargeable LED work light features a high-performance 3W COB LED floodlight paired with an integrated 7-LED headlight, providing flexible illumination for both wide areas and focused tasks. Designed for industrial and automotive environments, the unit is powered by an efficient 1800mAh lithium-ion battery with advanced overcharge and overdischarge protection. Its robust design includes multiple mounting options, such as a foldable magnetic handle and rear hooks, ensuring reliable hands-free operation in any workspace.
