

Rechargeable Lithium-Ion Battery 3.6V 1400mAh

This is a high-capacity rechargeable battery with a 3.6V output and 1400mAh capacity. It is compatible with specific chargers and ideal for powering cameras and other portable electronic equipment.

Product Overview

Reliable Power Solution

This high-capacity rechargeable lithium-ion battery is engineered to provide consistent power for portable electronic devices. With a 3.6V output and 1400mAh capacity, it ensures long-lasting performance for your equipment. It is specifically designed to be compatible with dedicated charging units to maintain optimal battery health and safety.

Technical Specifications

Performance Metrics

3.6 V Voltage	1400 mAh Capacity
-------------------------	-----------------------------

Battery Chemistry	Lithium-Ion
Voltage	3.6 V
Capacity	1400 mAh

Compatibility & Usage

Usage Instructions

- Use only with specific compatible chargers
- Designed for cameras and portable electronic equipment

Compatibility	Cameras, Portable Electronics
