

Rechargeable Ni-MH Battery F1.2V 11000 mAh

This is a high-capacity rechargeable Ni-MH battery suitable for various electronic devices. It features a voltage of F1.2V and a capacity of 11000 mAh.

Overview

High-Capacity Power Solution

This rechargeable Ni-MH battery is engineered to deliver reliable, long-lasting power for demanding electronic applications. With a robust capacity of 11000 mAh, it ensures extended runtimes and consistent performance. Designed for durability and efficiency, it is an ideal choice for professional-grade equipment requiring stable voltage and frequent recharging cycles.

Technical Specifications

Voltage

1.2 V

Nominal Voltage

Capacity

11000 mAh

Capacity

Battery Chemistry

Ni-MH (Nickel-Metal Hydride)

Charging Information

Standard Charge Time: 16 hours

Standard Charge Current: 280 mA

Features

Key Features

Rechargeable, High Capacity, Ni-MH
