## Product Overview

### Versatile Cooling and Lighting Solution

This rechargeable table fan is designed for both home and office environments, offering flexible cooling via AC/DC operation and sustainable solar charging compatibility. It features five distinct speed settings and an integrated 1-8 hour timer for customized climate control. With added safety features such as battery overcharge protection and real-time power capacity monitoring, it ensures reliable and safe performance for any workspace.

## Operational Features

Speed Levels	5 levels
Timer Function	1-8 hours
Control Options	Remote Control, Onboard Buttons

## Power and Monitoring
