

Rechargeable Wall-Mount Emergency Lantern

This rechargeable lantern utilizes 2x10W fluorescent tubes and automatically illuminates upon power failure. It can be wall-mounted for convenience.

Product Overview

Reliable Emergency Lighting

This wall-mount emergency lantern is engineered to provide dependable illumination during sudden power failures. Designed for versatility, it can be easily mounted on a wall or used as a freestanding light source. The unit is equipped with two 10W fluorescent tubes to ensure ample brightness when it is needed most.
