

Rechargeable Wall Mount Emergency Lantern

This rechargeable lantern is designed for wall mounting or freestanding use. It features a fluorescent tube and automatically lights up during power outages.

Product Overview

Professional Emergency Lighting Solution

This rechargeable emergency lantern is designed for high reliability in professional environments, ensuring visibility during sudden power failures. The unit features dual AC/DC operation and automatic activation, making it a critical safety component for commercial and industrial facilities. Versatile by design, it supports both wall-mounted installation and freestanding use to suit various operational requirements.
