

Rechargeable Wall-Mountable Emergency Lantern

This rechargeable lantern is designed for wall-mounted or freestanding use. It features dual 8W fluorescent tubes that automatically illuminate during power failures.

Product Overview

Versatile Emergency Lighting

This dual-tube rechargeable lantern provides reliable illumination during power outages, featuring an automatic activation system that ensures immediate light upon failure. Designed for maximum flexibility, the unit can be either wall-mounted or used as a freestanding lantern. With dual intensity settings and a robust, compact housing, it serves as an essential safety tool for professional and commercial environments.
