

Recordable Compact Disc 700MB 52X

This is a recordable compact disc (CD-R) with a capacity of 700MB and a recording speed of 52X. It can record up to 80 minutes of audio.

Overview

Reliable Data Storage Solution

This recordable compact disc (CD-R) offers a versatile storage solution for both professional and personal data archiving. With a standard 700MB capacity and support for up to 80 minutes of audio, it is ideal for creating backups, distributing software, or compiling music playlists. The disc is engineered for high-speed recording up to 52X, ensuring efficiency for large-batch burning projects.
