

# Rectangular Red Reflectors with Black Frame

These rectangular reflectors enhance visibility and safety, especially in low-light conditions. Their durable construction ensures reliable performance on vehicles, trailers, bicycles, and other equipment.

## Product Overview

### High-Visibility Safety Reflectors

These rectangular red reflectors with a sturdy black frame are engineered to enhance visibility and safety in low-light environments. Featuring a specialized textured surface, they effectively maximize light reflection to ensure equipment is seen from a distance. Their durable construction provides reliable performance across various weather conditions, making them an essential safety component for vehicles, trailers, and bicycles.

## Technical Specifications

Shape	Rectangular
Frame Color	Black
Reflector Color	Red
Surface Design	Textured for maximum reflection
Quantity per Set	4

## Applications

Common Applications	Vehicles, Trailers, Bicycles, Industrial Equipment
---------------------	--

## Quality & Performance

### Durability

- Weather-resistant construction
- High-visibility reflective material
- Impact-resistant black frame
