

# Red and Black Step-Through Motorcycle

This motorcycle has a step-through frame design and is finished in red and black. It features a front disc brake and an air-cooled engine.

## Overview

### Versatile Step-Through Design

This red and black motorcycle features a practical step-through frame, making it an accessible and convenient choice for daily commuting or urban transport. Designed with a focus on ease of use, it combines a reliable air-cooled engine with essential safety features like a front disc brake. The striking red and black color scheme with silver accents ensures high visibility and a modern aesthetic on the road.
