

Red Motorized Cargo Tricycle with Flatbed

This motorized tricycle is designed for carrying cargo. It features a flatbed in the rear and a scooter-style front end.

Product Overview

Versatile Motorized Cargo Solution

This motorized cargo tricycle is designed for efficient short-distance transportation of goods. Featuring a scooter-style front end for easy maneuverability and a durable rear flatbed, it provides a practical solution for utility and delivery needs. The vehicle's three-wheeled configuration offers stability while navigating urban or rural environments.
