

Red Off-Road Motorcycle with Luggage Rack

This red off-road motorcycle is equipped with a single-cylinder engine, high front fender, and knobby tires. It includes a silver engine casing, black exhaust system, padded seat, headlight, turn signals and rearview mirrors.

Overview

Versatile Off-Road Performance

This 125cc off-road motorcycle is engineered for versatility, seamlessly transitioning between rugged trails and paved roads. It features a robust single-cylinder engine, a high-clearance front fender for debris protection, and knobby tires designed for superior traction on uneven terrain. Equipped with a practical luggage rack, headlight, and turn signals, it is a reliable choice for both recreational riding and utility-focused transportation.
