

# Red Stainless Steel Electric Kettle

This electric kettle is made of red stainless steel and boils water rapidly. It has a detachable base and a handle for easy pouring.

## Product Overview

### Professional Grade Electric Kettle

This premium red stainless steel electric kettle combines sophisticated design with rapid-heating technology for optimal efficiency. Built for durability and convenience, it features a 360-degree rotating base and an integrated filtration system for cleaner water. Enhanced safety protocols, including automatic shut-off and boil-dry protection, make it an essential tool for high-demand home or office environments.

## Technical Specifications

Material	Stainless Steel
Finish	Vibrant Red

## Features

Key Features	Rapid Heating, 360-degree Rotation, Integrated Filter, Cordless Operation
--------------	---------------------------------------------------------------------------

## Safety & Compliance

### Safety Mechanisms

- Automatic power-off after boiling
- Boil-dry protection
