

Refillable Butane Lighter with Spark Ignition

This is a refillable butane lighter with a chrome-plated metal top. It features a transparent body that allows for easy monitoring of the fuel level.

Product Overview

Professional Refillable Butane Lighter

This refillable butane lighter features a durable chrome-plated metal top with a reliable spark ignition mechanism. Designed for consistent flame production, its transparent body allows users to easily monitor fuel levels at a glance. It serves as an ideal solution for consistent, everyday lighting needs in professional settings.
