

# Reflective Emergency Warning Triangle Kit

Emergency warning triangle kit designed to alert other drivers of a vehicle breakdown. The reflective material enhances visibility, especially in low-light conditions.

## Product Overview

### Essential Roadside Safety

This reflective emergency warning triangle kit is a vital safety tool designed to alert oncoming traffic during vehicle breakdowns or roadside hazards. Engineered for high visibility, the reflective material ensures effective warning even in low-light conditions. The compact design allows for easy storage in any vehicle trunk while maintaining stability through an integrated support stand.

## Technical Specifications

### Design Characteristics
