Product Overview

Professional Weatherproof Safety Jacket

This high-visibility bomber jacket is engineered for professionals working in demanding outdoor environments, combining thermal protection with essential safety features. Constructed with a 300D waterproof Oxford polyester shell and 160g quilted insulation, it ensures warmth and dryness in harsh weather. The design includes extensive reflective detailing, multiple utility pockets, and adjustable features to provide both comfort and compliance with ANSI/ISEA 107-2015 standards.
