

Reflective Warning Triangle for Roadside Safety

This reflective warning triangle alerts drivers to roadside emergencies. The portable safety device has a red reflector in a durable, foldable plastic frame with support legs.

Product Overview

Roadside Emergency Safety

This reflective warning triangle is a critical safety device designed to alert other motorists to roadside emergencies, breakdowns, or accidents. Featuring high-visibility materials, it ensures maximum awareness for drivers in various conditions. The robust, foldable design allows for space-saving storage in vehicles while ensuring quick and stable deployment when needed.
