Overview

Professional Refrigerated Beverage Dispenser

This high-capacity refrigerated beverage dispenser is designed for commercial environments, offering a reliable solution for serving chilled non-carbonated drinks like juice, tea, and water. Built with food-grade polycarbonate bowls and durable stainless steel components, it ensures both hygiene and longevity. The unit features intelligent temperature control and an efficient cooling system, making it an ideal choice for high-demand settings requiring consistent performance.

Technical Specifications

Total Capacity	30 L
Cooling Temperature Range	2-10°C
Power Supply	110-240V, 50/60Hz
Refrigerant Type	R134a

Construction & Design

Key Features

- Intelligent temperature control
- Mute design for quiet operation
- Stainless steel evaporator
- Push-button dispensing mechanism
- Integrated drip tray

Construction Materials	Food-grade Polycarbonate, Stainless Steel, Copper Coil
