Product Overview

Professional Refrigerated Display

This high-performance refrigerated cake display case is engineered for optimal product visibility and freshness. Featuring an advanced backblow refrigeration system and asymmetric eddy current air curtain technology, it ensures uniform temperature distribution throughout the cabinet. Designed for durability and energy efficiency, the unit combines tempered insulating glass with high-quality, corrosion-resistant materials to elevate your retail presentation.

Performance & Technology

Energy Efficiency

- Natural air defrosting
- Night energy-saving curtain
- Enlarged evaporator design
- Optimized heat exchange

Cooling Technology

Backblow Refrigeration, Laminar Flow Optimization, Asymmetric Eddy Current, Automatic Defrosting

Design & Construction

Display Features

- Panoramic design
- Multi-layer adjustable shelves
- Double row lighting
- Adjustable shelf angle

Optional Accessories

Curtain • Shelf Lighting • Label Rack • Glass End Plate • Mirror End Plate

Build Quality

Tempered Insulating Glass, Crash-proof Profile, Corrosion Resistant, Seamless Splicing
