

Refrigerated Serve-Over Display Counter

This refrigerated serve-over counter is designed to display and preserve food products in commercial settings. Its remote refrigeration system ensures efficient cooling while minimizing noise and heat output.

Product Overview

Professional Refrigerated Display

This premium serve-over display counter is engineered for commercial food environments such as delis and butcher shops. It features a sophisticated air cooling system that ensures consistent temperature regulation for optimal food preservation. The unit is designed with a durable construction and a built-in drain to facilitate quick and hygienic cleaning.
