

# Refrigeration System Pressure Gauge Set

This pressure gauge set is designed for measuring pressure in refrigeration and HVAC systems. The gauges feature circular dials with multiple scales for different refrigerants.

## Overview

### Professional Refrigeration Gauge Set

This high-precision pressure gauge set is designed specifically for HVAC and refrigeration systems maintenance. Featuring distinct red and blue color-coded casings for high and low side identification, this tool ensures accurate monitoring of system pressures. The integrated brass fittings provide a durable connection, making it an essential instrument for technicians performing diagnostics and system charging.

## Technical Specifications

### Compatible Systems

- Refrigeration
- HVAC

Number of Gauges	2
Fitting Material	Brass
Color Identification	Blue (Low Side), Red (High Side)
