Product Overview

High-Efficiency Hermetic Compressor

This GQR60U series compressor is a robust solution designed for M/HBP (Medium/High Back Pressure) applications. It is engineered to deliver high performance in compact refrigeration environments such as water dispensers, beer cabinets, and mini refrigerators. With a focus on efficiency, it provides reliable cooling using eco-friendly R290 refrigerant.

Performance Metrics

Core Performance Data

840 W

Cooling Capacity

2.6

COP

0.25 HP

Nominal Power

Technical Specifications

Electrical Characteristics

Feature	Specification
Voltage	220V - 240V
Frequency	50/60 Hz
Motor Type	RSIR
Cooling Type	F

Component Details

- Refrigerant: R290
- Starting Device: Current Relay
- Starting Capacitor: None
- Running Capacitor: None

Applications

Suitable Applications

Water Dispensers, Mini Drink Cabinets, Beer Refrigerators, M/HBP Refrigeration
