

# Reinforced Abrasive Cut-Off Wheel for Metal Cutting

This reinforced abrasive cut-off wheel is designed for stationary cutting machines. It is suitable for cutting steel and other metals.

## Product Overview

### Professional Grade Cut-Off Wheel

This reinforced abrasive cut-off wheel is engineered specifically for stationary cutting machines, providing reliable performance for steel and metal fabrication tasks. Built for durability and safety, it features a robust A24R-BF grit construction suitable for demanding industrial applications. The wheel complies with EN 12413 safety standards, ensuring consistent quality and operator confidence during high-speed cutting operations.

## Technical Specifications

### Dimensions

**300 mm**  
Diameter

**3 mm**  
Thickness

**25 mm**  
Bore Size

### Operating Limits

**5100 RPM**  
Max Speed

**80 m/s**  
Max Peripheral Speed

### Grit Specification

A24R-BF

## Compliance & Standards

### Certifications

EN 12413, ISO 9002

### Wheel Type

Type 41 (Flat)
