

# Reliable Agricultural Tractor

This tractor is designed for efficient agricultural operations. It features a powerful engine and heavy-duty tires for optimal traction.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency Agricultural Tractor

This 200hp four-wheel-drive tractor is engineered for high performance and reliability in demanding agricultural environments. Featuring a powerful, fuel-efficient intercooled engine and a newly upgraded chassis, it delivers exceptional operating efficiency and structural stability. The operator experience is enhanced by an upgraded air-conditioned cabin, ergonomic controls, and advanced hydraulic systems, ensuring comfort and productivity during long working hours.

## Performance

### Rated Power

**112.5 kW**  
Rated Power

**200 hp**  
Horsepower

**Transmission** 16 + 8 shuttle shift (optional crawling gear)

**PTO Output Power** 117.6 kW

## Dimensions & Weight

**Dimensions (L\*W\*H)** 5100 x 2390 x 3080 mm

**Minimum Operating Weight** 5700 kg

**Min. Ground Clearance** 485 mm

## Technical Specs

### Drive Type

Four-wheel drive

### Tire Configuration

- Front: 14.9-26
- Rear: 18.4-38

### Theoretical Speed (km/h)

Gear	Low	High
1	1.53	2.51
2	2.12	3.46
3	3.07	5.2
4	4.54	7.53

## Features

### Cabin Comfort

Air-conditioned, Adjustable steering wheel, Hydraulic steering, Aviation seats, Suspended pedals

### Hydraulic Capabilities

Double strong pressure lifter with four sets of hydraulic output
