

Remote Controlled Misting Fan with Adjustable Speed and Timer

This misting fan provides cooling through air circulation and a fine water mist. It features adjustable fan speeds, a timer function, and a remote control for convenient operation.

Product Overview

Advanced Cooling and Humidification

This versatile 2-in-1 system combines a powerful stand fan with an integrated humidifier to provide effective cooling and improved air quality. Designed for convenience, it features a remote control, a 7.5-hour timer, and multiple speed settings to suit any environment. The unit is built for durability with a heavy-duty motor, overheat protection, and easy-roll casters for seamless mobility.
