

Residential and Commercial Split Air Conditioner System

This split air conditioner system is designed for both residential and commercial use. It features an indoor and outdoor unit, providing efficient cooling and heating.

Product Overview

LWX Series Split System

The LWX series is a professional-grade refrigeration and air conditioning system engineered for both residential and commercial environments. This split system comprises a sleek, user-friendly indoor unit paired with a durable, weather-resistant outdoor unit. Utilizing advanced compressor technology and eco-friendly refrigerants, it delivers precise temperature control, quiet operation, and high energy efficiency for year-round comfort.
