

Residential Ceiling Fan with Light

This residential ceiling fan provides cooling and illumination for indoor spaces. In summer, clockwise blade rotation creates a wind chill effect, offering a thermoelectric cooling of approximately 8 compared to room temperature.

Product Overview

Energy-Efficient Climate Control

This residential ceiling fan with integrated lighting offers a dual-function solution for home comfort. By utilizing clockwise rotation, the fan creates a wind chill effect, allowing you to raise your air conditioner's temperature setting and significantly reduce energy consumption. It is an ideal addition to living rooms and bedrooms, combining ambient illumination with effective air circulation to lower monthly utility costs.

Energy Efficiency

Estimated Daily Savings

Metric	1P AC	2P AC	3P AC
Rated Power (W)	1200	2200	3100
Electricity Charge/Day (\$)	7.68	14.08	19.84
Saving/Day (\$)	2.622	5.182	7.486
