

Residential Elevator with Transparent Panels

This residential elevator is designed for luxurious homes and villas. It features transparent panels for panoramic views and a comfortable vertical transportation experience.

Product Overview

Sophisticated Villa Vertical Transport

The WIN 900 Series residential elevator offers a blend of luxury and functionality, specifically designed to elevate the aesthetic of upscale villas. Its back-packed design optimizes space while maintaining a premium look with transparent panels that provide panoramic views. Engineered for residential convenience, it utilizes a standard 220V power supply for efficient, quiet, and safe operation.

Technical Specifications
