

Residential Gas Boiler for Heating and Hot Water

This wall-mounted gas boiler provides residential heating and hot water. It features a digital display and control panel for easy operation and efficient energy consumption.

Overview

High-Efficiency Residential Gas Boiler

This residential gas boiler provides reliable heating and hot water solutions for modern homes. It features a luxury LED dual-display interface with a sleek, clamshell design for intuitive operation. Designed with safety and convenience in mind, the unit includes advanced electronic pressure monitoring and micro-computer self-inspection capabilities to ensure consistent performance.

Interface & Control

Monitoring Capabilities

- Real-time temperature monitoring
- Electronic water pressure sensor system
- Micro-computer malfunction self-inspection

Display Interface	Luxury LED dual display
Control Panel Design	Clamshell user-friendly design

Smart Features

Scheduling	Weekly time scheduling
Temperature Control	Constant temperature control

Safety & Compliance

Safety Features	Self-Inspection, Electronic Pressure Sensor, Constant Temperature Safety
