

Residential Kitchen Range Hood

This range hood is designed for installation above cooking surfaces in residential kitchens. It effectively removes smoke, grease, and odors generated during cooking.

Product Overview

Professional Residential Ventilation

This high-performance kitchen range hood is engineered for residential cooking environments, providing effective removal of smoke, grease, and odors. Constructed from high-grade stainless steel and tempered glass, the unit ensures long-lasting durability and effortless cleaning. With an integrated multi-layer filtration system and customizable fan speeds, this hood provides optimal air quality management for any modern home kitchen.

Technical Specifications

Construction Materials	Stainless Steel, Tempered Glass
Illumination	Integrated LED lighting

Performance Metrics

Fan Settings

- Variable speed settings
- Customized ventilation

Filtration Type	Multi-layer grease filtration
Control System	Intuitive control panel for fan and light
