

# Residential/Commercial Electric Switch

This electric switch is designed for residential and commercial applications. It features a sleek, minimalist design with a metallic finish and a slim profile.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Electrical Switch

This high-performance electrical switch is engineered for both residential and commercial applications, offering a blend of durability and modern aesthetics. Designed with safety as a priority, it features enhanced electrical clearance and superior overcurrent capabilities thanks to high-quality silver-nickel alloy contacts. The unit is built for reliability with a robust copper terminal block, ensuring stable performance and longevity in various building projects.

## Technical Specifications

Rated Current	10 A
Rated Voltage	250 V
Temperature Resistance	850 °C
Dimensions	86 x 86 cm
Installation Type	Flush
Color	Gold

## Key Features

### Performance Highlights

**5 mm**

Electrical Clearance

**4 mm<sup>2</sup>**

Max Wire Capacity

### Construction Materials

- Silver-nickel alloy contacts
- Full copper arc U-shaped terminal block
- All-copper screws

## Logistics & Usage

### Packaging Details

Unit	Quantity
Poly bag	1
Inner Box	10
Carton	100

### Typical Usage

Residential, Schools, Commercial Buildings, Construction Projects
