

Residual Current Circuit Breaker RCCB 40A 240V 30mA

This residual current circuit breaker (RCCB) is rated at 40A with a voltage of 240V and a 30mA residual current. It is designed for electrical safety, providing protection against electric shock and leakage currents.

ADDITIONAL IMAGES

Product Overview

Professional Electrical Safety

This Residual Current Circuit Breaker (RCCB) is engineered to provide reliable protection against electric shock and dangerous leakage currents. It automatically interrupts the circuit when leakage exceeds a specified threshold, ensuring enhanced safety for both residential and commercial electrical systems. Designed for durability and ease of maintenance, it includes an integrated test function to verify operational integrity.
