

Retractable Air Hose Reel with Pre-Installed Hose

This retractable air hose reel comes with a pre-installed air hose for efficient pneumatic operations. Its durable construction ensures long-lasting performance and the retractable design allows easy storage.

Overview

Industrial-Grade Air Management

This retractable air hose reel provides a robust and efficient solution for professional pneumatic operations in workshops, garages, and industrial environments. Featuring a high-durability steel side-support bracket, it ensures stable wall or workbench mounting for long-term reliability. The integrated 4-roller guide system minimizes hose friction, while the retractable mechanism keeps workspaces organized and free from tripping hazards.

Technical Specifications

Hose Specifications

3 inch

Hose Diameter

50 ft

Hose Length

Reel Style	Retractable
Maximum Working Pressure	300 psi
Air Inlet/Outlet Size	1/4 inch (M)

Installation and Design

Mounting Features

- Steel side-support mounting bracket
- Workbench or wall mountable
- Adjustable 45-degree guide arm

Design Enhancements

- 4-roller hose guide design
- Includes 3ft lead hose
- Reduced hose wear mechanism

Certifications

Recommended Usage	Workshops, Garages, Industrial Settings
