Product Overview

Professional Grade Snap-Off Cutter

This heavy-duty 9mm snap-off utility knife is engineered for precision and durability in demanding work environments. Featuring a robust die-cast aluminum alloy handle and a high-carbon SK2 black tool-grade blade, it delivers superior cutting performance. The 4-point stopper slider design ensures exceptional stability and balanced locking force, making it an ideal tool for cutting cardboard, paper, and other materials.

Technical Specifications

Blade Width	9 mm
Cutting Edges per Blade	13
Blade Material	High-carbon SK2 black tool-grade steel
Handle Material	Die-cast aluminum alloy
Model Number	CA232
