

Retractable Blade Utility Knife

This utility knife features a retractable and adjustable segmented blade. Its body is made of zinc alloy.

Product Overview

Professional Retractable Utility Knife

This professional-grade retractable utility knife is designed for versatility and precision in industrial and workshop environments. Featuring a robust metal body with an ergonomic black grip, it offers superior control when cutting cardboard, paper, and plastic. The adjustable, segmented blade mechanism allows for quick length customization, making it an essential hand tool for demanding everyday tasks.
