

Retractable Blade Utility Knife

This utility knife features a retractable, segmented blade for easy replacement. Its ergonomic handle ensures a comfortable and secure grip for cutting various materials.

Product Overview

Professional Utility Knife

This retractable blade utility knife is designed for efficient cutting tasks in professional environments. It features a durable, ergonomic handle for a secure grip and a segmented blade system that allows for easy snapping and replacement of dull edges. Ideal for precision cutting of paper, cardboard, and various other materials, it is a versatile tool for any workspace.
