

Retractable Blade Utility Knife

This retractable blade utility knife features a segmented blade. The blade can be extended and retracted with a sliding mechanism and locked into position.

Product Overview

Professional Utility Solution

This retractable utility knife is designed for versatile cutting tasks, featuring a segmented blade system that ensures you always have a sharp edge ready. The ergonomic, durable handle provides a secure grip for safe handling while working on materials like cardboard, paper, plastic, or fabric. With its efficient slide-and-lock mechanism, this tool is an essential asset for precision cutting in professional environments.
