

Retractable Cord Optical Mouse

This is a compact, optical mouse with a retractable USB cord. The mouse features a clear plastic casing, allowing internal components to be viewed.

Overview

Compact Portability

This retractable cord optical mouse is engineered for professionals on the go who prioritize desk organization and portability. Featuring a transparent casing that reveals its internal components, it combines a modern aesthetic with practical functionality. The integrated retractable USB cord mechanism ensures a tangle-free experience and allows for adjustable cable length to suit any workspace configuration.
