

Retractable RJ45 Ethernet Cable

This retractable RJ45 cable connects devices to an Ethernet network. It features a retractable design for compact storage and portability.

Product Overview

Compact Connectivity Solution

This retractable RJ45 Ethernet cable is designed for professionals seeking efficient, tangle-free connectivity. Its compact, telescopic design makes it an ideal choice for travel and minimizing cable clutter in mobile office setups. Engineered with premium materials, this cable ensures durable performance and universal compatibility with standard Ethernet-enabled devices.

Technical Specifications

Certifications & Standards	RoHS Compliant, High Temperature Resistant
Quality Assurance	Salt spray test passed for over 12 hours

Construction & Materials

Core Materials

Component	Material
Plug	Steel with copper bottom plating
Terminal Pins	Gold-plated copper
Outer Mold	80-degree PVC compound
Jacket	85-degree TPU compound
Spring	Japan imported 301 stainless steel
Shell	ABS

Conductor Details

0.08 mm Copper Wire Diameter	400 mm Spring Length
