

Retractable Segmented Blade Utility Cutter

This utility cutter features a retractable and adjustable segmented blade, allowing for controlled cutting depths. It is equipped with a textured grip for enhanced handling and a blade locking mechanism for safety.

Product Overview

Professional Utility Cutter

This retractable segmented blade utility cutter is designed for precision and versatility in professional work environments. Featuring a robust blue and grey handle with a textured grip, it ensures optimal handling and comfort during extended use. The integrated blade locking mechanism provides enhanced safety, while the segmented blade design allows for quick and easy maintenance by snapping off dull segments to maintain a sharp edge.
