

Retractable Stereo Earphones

These stereo earphones feature a retractable mechanism for easy cable management and tangle prevention. They provide clear audio quality and universal compatibility with devices through a 3.5mm audio jack.

Product Overview

Compact Audio Solution

These retractable stereo earphones are designed for ultimate portability and convenience. The integrated telescopic mechanism ensures tangle-free cable management, making them perfect for travel, sports, or daily commuting. Featuring a universal 3.5mm jack, they provide reliable compatibility and clear audio quality for both music playback and voice calls.
