

Retro Electric Scooter for Urban Transportation

This electric scooter is designed for urban transportation. It features a retro design with a light blue finish, chrome accents, and a comfortable seat.

Overview

Urban Mobility Redefined

This electric scooter combines classic retro aesthetics with modern, emission-free urban transportation technology. Designed for efficient commuting and short-range travel, it features a distinctive light blue finish complemented by stylish chrome accents. The vehicle is fully equipped for city life, including essential safety lighting, mirrors, and a practical rear luggage rack for daily convenience.
