

Retro Style 50cc Gas Scooter

This retro-styled scooter is designed for urban commuting. It features a rounded headlight, chrome accents, and a step-through frame.

Overview

Retro Urban Commuter

This 50cc gas-powered scooter combines classic retro styling with practical urban mobility. Engineered with a reliable 2-stroke, air-cooled engine, it offers a nimble and efficient solution for short-distance commuting. Its compact frame and lightweight design make it easy to maneuver through city traffic while maintaining a distinct, stylish appearance.
